

Fictional Addendum: Technical Compliance Clarifications

Respondent: Najm Urban Mobility Systems

Tender reference: RMMO-SP-2026-014

Availability Commitment

Najm commits to 99.5% monthly uptime for the hosted production service. Scheduled maintenance will be requested at least 72 hours in advance and targeted outside peak enforcement windows.

Data Hosting

Production resident permit records, vehicle plate metadata, payment references, and enforcement notes will be stored in a Riyadh cloud region. Backups will remain within the Kingdom of Saudi Arabia.

Security Evidence

Najm can provide the March 2026 independent penetration test executive summary under NDA. ISO 27001 certification is scheduled for final audit in Q4 2026 and is not yet issued.

Incident Response

Critical production incidents receive a named support engineer within 30 minutes. Standard support tickets receive first response within 4 business hours.

Sustainability Reporting

Najm will submit a quarterly sustainability report covering cloud hosting region energy profile, sensor maintenance trips, and avoided manual patrol estimates.

Training Clarification

The base proposal includes 40 named municipal trainees. Najm can add 10 additional trainees at no license cost if training is delivered remotely.
